Notice,

To Wheelwrights, Blacksmiths, Tanners, Harness-Makers, Saddlers, Hatters, &c.
BELIEVING as I do, that PROVIDENCE, at Fairfax Court-House, would be a suitable situation for mechanics of the above description, I offer to such, lots in that village for sale, on ground rent for ever—will build and furnish suitable houses and rent to them, or furnish brick to them to build with; and invite any who feel disposed to settle there, for the purpose of carrying on their respective trades to advantage, to come and view the situation. It is a very public place, the centre of the county, where the superior and county courts are held. The Little River Turnpike Road passes through this little town from Alexandria westward, and where all the public meetings for the county, &c. are held; and where trades of the aforesaid description being carried on, would meet with great encouragement, and be a public convenience to the country around. No situation can be more healthy—good water, and fire wood cheap. Mechanics of the above description must generally depend on the country people, farmers, &c. to be their customers. Here they would be in a convenient situation for all the purposes. I invite a call, and view for themselves. I would also furnish lots adjacent, from one to five acres each, for cultivation, pasture, &c. on moderate terms; all of which can be shown, and terms made known, on application to RICH'D. RATCLIFFE,

GAZETTE
AND
Alexandria Daily Advertiser.

PUBLISHED BY
SAMUEL SNOWDEN,
ROYAL-STREET.

Daily Gazette, 7 dolls...Country, 5 dolls.

SATURDAY, MAY 22, 1819.

LATEST FROM EUROPE

New-York, May 18.

The editors of the Mercantile Advertiser are indebted to captain Avery, of the ship Criterion, for London papers to the 9th of April, inclusive.

British Stocks, April 7. Three per cents 74, 5-8.

Accounts from Madrid to the 25th *March* state, that the cabinet had determined on another alteration in the plan respecting the Cadiz armaments. Three ships of the line, and three frigates were to sail for the Pacific early in April, with only such troops as they can conveniently carry; and transports, with 4000 troops, were to sail a month after them to the same destination. The grand expedition was going on slowly and it was thought would not leave Spain before August or September.

Paris papers to the 5th of April had reached London, but were barren of news. French stocks April 3, 65f. 95c.

The British parliament, previous to adjournment on the 8th, for the Easter recess, passed a bill for restraining cash payments at the Bank of Ireland, which afterwards received the royal assent. The committee of secrecy, appointed to consider the state of the Bank of England, with reference to the expediency of resuming cash payments at the period fixed by law, reported, on the 5th, that they were engaged in deliberating on the subject, and hoped to be able to make a report at an early day after the recess. Believing that they shall be able to fix a period for the final removal of the present restriction on the Bank, which would be delayed by a continuance of the drain of the treasure from the Bank, on account of its engagement to pay all notes of an earlier date than January 1, 1817, and small notes under 5*l*. the committee recommend that a bill be forthwith passed, restraining all such payments in gold coin, until their report shall be received and acted upon.

London, April 9.

A proclamation notifies the delivery to the Bank of England (from the Mint) a coinage of crown pieces, which are to pass for 5s. It is said that a new coinage of guineas is to be issued which are only of the actual value of *seventeen* shillings.

The number of military forces, serving in India, at the date of the last dispatches, was 213,454.

Marshal Brune, has been assassinated in France. The King has given orders to institute proceedings against the assassins.

London Markets, April 6.

The price of E. India cotton has again given way, about ¼ a ½d per lb.; the market may be considered 1 a 1½d under the January E.I. sale prices—the reduction, however appears to facilitate sales. Last sales —103 bales boweds, prime, 13½ a 14½d; 100 Bengals, middling to best, 6d a 6½d; 800 do, ordinary 5d to 5½d.

Tobacco—the exports during the last month exceed 2000 hds; stock of course decreasing. The market is, however, heavy, and prices without variation.

At a public sale this forenoon, 782 bls. new rough Turpentine, from New-York, brought 14 a 14s 6d; 138 bls fine quality Pearl Ashes, from do, 54s a 54s 3d; 227 whole, and 64 half bls, Carolina Rice, new good quality, 46s a 46s 6d. duty paid.

—

The ship Criterion, capt. Avery, arrived yesterday in 28 days from London. She brings papers to the 9th April, but they contain very little of importance. We are indebted to the editors of the Commercial Advertiser for the London Times of the 8th April. [*N. York Daily Adv.*

London, April 8.

We cannot find in the French papers any intelligence of moment. On the petition of Marshal Brune's widow, the king has given orders to institute proceedings against the assassins of that officer. Some particulars are given from Frankfort, respecting the murder of M. Kotzebus, and the proceedings of his murderer, both before and after the commission of the crime. This enthusiast died persisting in the assertion that he had no accomplices. In the papers found upon him, M. Kotzebue is termed a slave of kings, and the Spy of Russia. The father of the criminal is a respectable man and has a numerous family. Apprehensions are entertained by the liberaux of Germany, that M. Kotzebue's murder may yet fall heavy on the party, for the sake of which it professed to have been perpetrated. The Emperor Alexander, it is supposed, will urge some strong measure against the Jacobin interest in that country. Nor is it unlikely that the friends of arbitrary power may seize so favorable an occasion as has thus been afforded them, for putting still farther the hopes of those patriots who wish for nothing more than to be soberly and rationally free. Almost every where, during our own times, it has been the fate of genuine liberty to be punished for outrages of which it was never guilty. The iron rod of Bonaparte was entailed upon France by the madness of her demagogues.

The extension of the law just passed for liberating the bank of England from the payment of certain notes and fractions in cash, to the Irish Bank, has produced an embarrasment; for it appears, that by ordinary forms, the bill cannot be carried through in one night without a suspension of the standing orders; and no notice of this suspension having been given, the house is obliged to sit this night.

An order was issued at the bank yesterday morning, to the office for paying the dividend warrants, to discontinue making any portion of the payments in gold, and to limit the silver specie on each warrant to 20s beyond the odd money.

A proclamation in the Gazette, notifies the delivery to the bank of England, (from the mint,) for the use of his majesty's subjects, a coinage of crown pieces, which are by this proclamation to pass as the lawful coin of the realm, as of the value of 5s, in all payment and transactions of money.

Dr. Stokore came to England from St. Helena, in consequence of a difference of opinion between him and Sir Hudson Lowe, as to his duty respecting the reports of conversation had with Bonaparte.

This gentleman we understand, was on Tuesday examined by Ministers, and the result has been, that he is immediately to resume his functions at St. Helena. The inference from this is that his conduct has fully been approved of. We understand that it had been required of him to report every word communicated by Bonaparte, even in confidence, and that whether it could have any relation to the political condition of the prisoner or not—and that he had refused to accede to this requisition of Sir Hudson Lowe.

Corn Exchange, April 7.

Our market continues exceedingly heavy for all grain, yet what fine English wheat was disposed of this morning obtained Monday's prices. The supply of barley and oats both English and Foreign, being very large, rather low prices were submitted to. In beans and peas prices nominal.

EXECUTION AT MAIDSTONE.

On Thursday last, the awful sentence of the law was executed on James Morgan, aged 39, and Wm. Bowra, aged 19, both capitally convicted at the late Kent Assizes.

After the criminals had hung some time, the usual disgusting scene took place of persons afflicted with wens applying to the executioner for the purpose of having the swellings rubbed with a hand of the deceased, which the credulity and ignorance of the afflicted or their relatives led them to suppose would be an effectual cure. On this occasion, many persons of both sexes, and of various ages, underwent the operation.

One decent pretty looking girl, about 17 years of age, presented herself at the moment when the body of Morgan was about to be cut down, and she actually stood upon the coffin to be sufficiently high for the hand of the corpse to be drawn several times over her neck. How great must have been the credulity which could induce a young girl, in the face of hundreds of spectators, thus publicly to expose herself in the performance of an act so revolting to female delicacy and general feeling. It is truly pitiable.

PARLIAMENTARY PAPER.

First report of the secret committee on the expediency of the bank resuming cash payments.

The committee of secrecy appointed to consider of the state of the bank of England, with reference to the expediency of the resumption of cash payments at the period fixed by law, and into such other matters as are connected therewith; and to report to the house such information relative thereto as may be disclosed without injury to the public interest, with their observations thereupon.

Are engaged in deliberating upon their report, which they hope to be able to present to the house on an early day after the approaching recess.

The committee having a confident expectation that in that report they shall be enabled to fix a period, and recommend a plan for the final removal of the present restriction on the bank, think it their duty to submit to the house that the execution of any such plan, would, in their opinion, be materially obstructed and delayed by a continuance of the drain upon the treasure of the bank, on account of the engagement of the bank to pay in cash all its notes outstanding, of an earlier date than January 1st 1817, and on account of the payment in cash of fractional sums under 5*l*.

That the committee therefore, think it their duty to suggest the expediency of passing forthwith a bill, restraining all other payments in gold coin, until the report of the committee shall have been received and considered by the house, and a legislative measure passed thereupon.

After the report was read, Mr. Pell obtained leave to bring in a bill to restrain the bank from making payments of fractional sums under 5*l*. and to restrain them from paying their notes issued before the 1st day of January 1817, in gold.—After a long debate the bill was read a second time and ordered to be engrossed. On the 6th, it passed through all its stages in both houses, and subsequently received the royal assent by commission.

On the same evening a bill was brought in for restraining the bank of Ireland from paying its notes in cash under 20*l*. which it has hitherto been in the practice of doing. It passed through all its stages immediately, and will, (says the Courier,) pass through the house of Lords, and receive the royal assent forthwith.

In the house of Lords on the 6th of April, the Marquis of Landsdown said, that it was his intention on a future day to move an address for information respecting any communication which may have passed through the Prince Regent's government and the United States of America, relating to the cession of the Floridas.

Paris, April 4.

Yesterday, the king successively transacted business with Marshal Macdonald, Duke of Tarentum, Grand Chancellor of the Legion of Honour, who is recovered from his indisposition; and Count de Cazes, Minister of the Interior.

The petition of the widow of Marshal Brune to the king, has been comparatively successful. His majesty has given orders to the keepers of the seals to institute proceedings in Paris, against those accused of the assassination of the marshal. In a note to the petition, Madame Brune stated, that as soon as her appeal should be favorably received, she would denounce to the tribunal charged with the affair, the names of those whom she accuses of being the murderers of her husband.

The Duke and Dutchess of Kent set off from Frankfort on the 29th ult. for England. The advanced pregnancy of the Dutchess compels them to travel by easy stages.

By the arrival of the British brig Edward Smith, in 34 days from Leith, we have received Edinburgh papers to the 5th of April inclusive, from which we have made a few selections for to-day's paper. The Edward left Leith on the 11th of April, but we understand brought no later papers than the 5th. [*N. York Daily Adv. May 17.*

PRIVATE CORRESPONDENCE.

London, April 2.

For a considerable length of time persons interested in the Newfoundland fishery, have sent memorials to Government, complaining of the unfavorable state of their trade, and pointing out the impolicy of allowing the citizens of the United States any further privileges on this subject, which it is stated, would ruin entirely the Newfoundland fishery. To these representations, the Ministers, we understand, replied, that if, in the commercial treaty which was then about to be arranged with America, such privilege should be granted, Government, by way of bounty, would allow 3s. per quintal on all fish cured at Newfoundland, which would produce about 250,000 pounds a year, which being now the case, a deputation have waited on the Chancellor of the Exchequer, who, in conformity with what was before promised, agreed to allow the sum above mentioned. A difficulty, however, has arisen, from the circumstance of *Mr.* Vansittart's being at a loss from what fund to take it. This he has candidly admitted, and told the deputation, that he cannot apply to Parliament for the money in question in the present state of the country. The Newfoundland traders, however, indulge in the hope that the ingenuity of the Chancellor of the Exchequer will afford them the relief now sought for.

SPANISH MAIN.

We last evening received a file of Kingston (Jamaica) papers to the 1st of April. They contain some particulars of the affairs on the Main. Seven transports had entered the Orinoco, with two thousand British troops on board. The affairs at Guayana were prosperous for the independents.—The deputies for the Congress of Venezuela had all assembled at Angostura. Six hundred British troops had arrived at Margaritta, and also a division at Angostura. The Spanish Royalists place great confidence in Morillo, and look forward to a favorable result. The campaign was expected to be very sanguinary. Commodore Jullie had a public dinner given to him on board an English sloop of war.—He had sailed with his squadron, destination unknown. The independent squadron consisted of eleven vessels of war, well manned. Colonels English and Blosset will command the divisions of the British auxiliary troops. [*Ibid.*

FROM THE HAVANA.

By the arrival this forenoon of the schnr. Sea Horse, Capt. Clarkson, in 6 days from the Havana, we learn that the report received via Savannah, a few days since, of the *cession of the Island of Cuba*, by the Government of Spain, to Great Britain, was generally credited there, and spoken of publicly; the people however were much exasperated, and determined not to accede to the measure, declaring their determination to oppose its occupation by any other government than that by which it is at present ruled; and that they would in the event of an attempt to occupy it by Great Britain, declare themselves independent and would be supported in the maintainance of it, by no less than *two hundred thousand troops*. Admiral Sir Home Popham, sailed on the 1st inst. for Jamaica, leaving a frigate and two sloops of war at the Havanna.

ALEXANDRIA:
SATURDAY, MAY 22, 1819.

ORIGIN OF TONTINES.

The word *Tontine* is derived from the name of an Italian projector. This was one Laurence *Tonti*, one of the creatures of Cardinal Mazarine, who finding the people very much out of humor with his eminence's administration, imagined he could reconcile them by a proposal of a method to make people rich in a moment with their taking the least pains or trouble to earn it. His scheme was a lottery of annuities, with survivorship, which he proposed in 1653, with the consent of the court: but the parliament would not register the edict.—Three years after, he tried his project again for building a stone bridge over the Seine, when it had both the favor of Court and the sanction of parliament, under the title of *Bangue Royale*, but it failed again; for somebody having given it unluckily the name of Tontine, nobody in Paris would trust his money in a lottery that had an Italian title. The last attempt poor Tonti made was to get his plan adopted by the clergy, for the payment of their debts; but though they acknowledged the ingenuity of it, they rejected it as unfit for their purpose.

Such was the invention of the Tontine. It remains to be shewn when it first came into use. When Louis XIV was distressed by the League of Augsburg, and granted money beyond what the revenues of the kingdom would furnish for supplying his enormous expences, he had recourse to the plans of Tonti, which though long laid aside; and by an edict in 1689, created a Tontine Royale of one million four hundred thousand livres annual rent, divided into fourteen classes. The actions were three hundred livres a piece, and the proprietors were to receive ten per cent, with benefit of survivorship in every class. This scheme was executed but very imperfectly, for none of the classes rose to above twenty five thousand livres, instead of one hundred thousand, according to the original institution; though the annuities were very regularly paid. A few years after, the people seeming in better humor for projects of this kind, another Tontine was erected upon nearly the same terms, but this was never above half full. They both subsisted in the year 1726, when the French king united the thirteenth class of the first Tontine with the fourteenth of the second, all the actions of which were possessed by Charlotte Bonnemay, widow of Lewis Barbier, a surgeon of Paris, who died at the age of ninety six.

This gentlewoman had ventured three hundred livres in each Tontine, and in the last year of her life, she had for her annuity seventy three thousand five hundred livres, for about one hundred and twelve dollars and a half.

New-York, May 19.

A letter from our correspondent at Canton, dated the 2d of January, (received by the Hope) states, that the captain of an American ship arrived that morning from the Sandwich Islands, who informed him that he left at the islands a Russian frigate that had been on the coast of California—the capt. of the frigate said that the Spaniards had ceded that country to the Russians, who would shortly take possession. The frigate was expected at Macao in a few days, and from thence goes to Manilla.

[*Gazette.*

It is with sensations of deep regret we have perused the statement contained in the following paragraphs from the New-York Evening Post of the 14th inst. Not to copy them would not be to suppress the rumors which this publication has already made sufficiently notorious. We will, for the present, only express our hope that the reports will prove, as the Post supposes possible, to be "false and slanderous," and that "the contradiction may be as public as the charges." It will give us sincere satisfaction to be authorized to contradict them, and put their authors to shame.

[*National Intelligencer.*

From the New-York Evening Post.

Report states that an order was recently issued in Florida, by colonel King,* to put to instant death, without the delay or form of a trial, any deserter that was taken.—That, in consequence, a party under the command of Lieutenant ——, went in pursuit of a man of this description, whom they overtook; that they informed the prisoner of the nature of their orders, and their readiness to execute them. He firmly expostulated with the officer—demanded a trial, claiming his rights as a man and an American citizen; but, finding his expostulations vain, he knelt down and received the fatal bullet in his breast.

In another instance, it is reported that, in the Alabama territory, a soldier was condemned by his officer, as a punishment for intoxication, to be ducked; which was executed on the spot, and carried to that excess that the man was literally drowned. This order was also issued without the form of trial.

At Greenbay, on the western side of Lake Michigan, the military, as the same report states, has assumed a complete control over the civil authority. Citizens have been taken up for real or pretended offences, been tried by courts martial, and the punishment of what is called *picketting* inflicted upon them; that is, by placing the culprits on four wooden pins, drove firmly in the ground, with the points exposed above the ground a half or quarter of an inch—over these he is suspended by cords fastened to the thumbs, and when he can no longer sustain himself in the air, he must let his weight down on the pin.

As, however, we have no positive evidence that the above reports are true in all their enormity, we shall not, at present, make any further comments on them, nor add any reflections on the parties implicated. We would hope for the honor of our country and the reputation of our army, that they prove to be unfounded; but we cannot refrain from saying, in conclusion, we have strong forbodings to the contrary.

* This is the gentleman to whom General Jackson assigned the command of Pensacola and its dependencies.

THE SEASON.

May, thus far, has been cold, boisterous and rainy:—but the farmers have the proverb in their favor:

"A cold May, and a windy,
"Make the barn fat and *finely*."

[Meaning, says Johnson, that it stores the barn with plump and firm grain.]

There was frost on Thursday evening in this vicinity.

NEWSPAPER STEALING.

A man who keeps a shop in a central situation in this town, was on Thursday last brought before a justice of the peace, on a warrant for stealing newspapers. The complainant is a subscriber for the Daily Advertiser, and for some time past, has lost more than half his papers. His servant, on the morning above mentioned, detected the person complained of, and the evidence of theft being clear and satisfactory, the justice fined the offender two dollars, and costs, four dollars and four cents. We are glad that an attempt has been made to put a stop to the practice of stealing papers, and hope that if this warning does not prove sufficient, a severer example may be made of similar offenders. Military.

☞ A subscription paper, of which the following is a copy, is left at the printing-office of *S. H. Davis*, for signatures :—

"We, the subscribers, being fully sensible of the importance of military discipline, and preferring a select association to the mixt enrolment in the common battalion companies, do hereby agree to form ourselves into a UNIFORM COMPANY, to be denominated ——————. The uniform to be that which the law prescribes, and the officers to be elected by the company."

The advantages resulting to the members of such an association are obvious.—The uniform will not be an expense, as in other companies, it being that which the militia law requires every individual to appear in, which requisition will be rigidly enforced hereafter by courts martial. The number will be limited to 64, and those desirous of becoming members should enrol themselves immediately. 6t May 18

To the Printers of the United States.

GENTLEMEN: In presenting a list of new prices of types, some explanatory remarks may be useful. The former prices were fixed during a period in which the raw materials were dear, and not easily to be procured, and it is presumed that they had some claim to be considered moderate, as in 1812 type were more than 3 per cent lower in Philadelphia than in London; and no advance was made on those prices during the late war, although existing circumstances would have justified the measure. It was considered that an advance would be an actual loss to the printers, as the competition in the printing business had, before that period arrived at such a point, that the public were supplied with printing at nearly the minimum; and also, that it was probable the price of types would continue sometime after the return of peace, and recompense for any advantage that was given up. This has taken place.

For some time past, types have been lowered in value but not in price. They have been sold on long and frequently uncertain credit, which produces to the seller all the effects of reduction of price, whilst to the printer who pays, it is comparatively of little benefit. All the advantages are in favor of those who promise, but do not perform, as, in truth, they get types for nothing, and the solvent printers pay for them. Another objection to this mode of reducing price is, that it absorbs the seller's funds, and, no matter how industrious or frugal he may be, subjects him to all the inconveniences of poverty.

Men who possess talents, economy, industry and honor, will sometimes lack money. The characters who have just claims to those attributes will rarely be at a loss for friends, and will enter on business with a more favorable prospect of success, when assisted by a moderate, than by an extended credit, which is equally within the reach of a rival, who, with an ardent disposition for speculation and adventure, may have but doubtful claims to reputation and prudence.

In order to leave no ground for complaint, it is to be understood that all purchasers, since the 1st of April, who comply with the new terms, will be entitled to benefit by the new prices.

Presuming on the long intimacy which has subsisted between you, gentlemen, and this establishment, I request you will give this an insertion in your papers.

Yours, respectfully,
JAMES RONALDSON.

lying on the stage or Colchester road, distant about 6 miles from Alexandria, and containing 148¼ acres, more or less;—reserving, however, to George Triplett his right to one moiety of the dwelling house and yard. This land has been very considerably improved by judicious cultivation, and there are now growing crops of small grain upon it.

Also, one other tract, being an equal undivided moiety of a tract of land in the said county, contiguous to the foregoing, and supposed to contain 25 acres 2 poles.

Gunston for Sale.

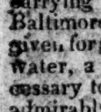
THIS elegant estate is situated on the Potomac, 16 miles below Alexandria—it is bounded on three sides by the Potomac and Pohick creek, and contains nearly 3,000 acres of land, level and fertile, to which are attached six shad and herring fisheries, two of which command the river channel. This land will be laid off in four tracts, so as to have one or more fisheries to each; these tracts will be again divided if requisite. This estate is level and beautifully situated, very fertile, and remarkably healthy. Plaister acts with an effect equal to that of any part of Virginia or Pennsylvania.—I have used 500 bushels in twelve months, and such is its beneficial operation, that were I to keep this land I should considerably increase the quantity. A manufacturing mill is distant about two miles, on a stream navigable for vessels carrying 1200 bushels of wheat, where the Baltimore and Dist. of Columbia prices are given for grain: being bounded on 3 sides by water, a small extent only of fence is necessary to inclose the whole: it would be admirably adapted to grazing. The improvements are a large and very

substantial brick mansion, 40 by 70 feet, with every necessary outhouse, three commodious barns, houses for Negroes, and fish houses at each of the fisheries. 120,000 bricks and 1000 bushels of lime are just burnt on the premises. There is a considerable extent of live fence, both useful and ornamental, two orchards of well selected apples and peach, besides an abundance of other choice fruit. More than 150 acres are in clover, 200 in corn, and land is in preparation for sowing 250 bushels of small grain. Any quantity of hay can be cut from the low grounds, some of which (and all might,) have been reclaimed at a trifling expense. The river and creeks, abound with wild fowl, particularly canvass backs, the woods with deer and a variety of other game. Mules, cattle, highly improved sheep, farming utensils and household furniture can be had. The terms of sale will be accommodating. Property in any of the cities, negroes, bank stock, western lands, or lands near the Ridge, will be taken in payment.—Letters must be addressed to me at Pohick Church, Fairfax county, Virginia.

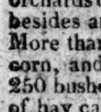
September 4 GEORGE MASON.

Valuable Property for Sale.

THE subscriber is desirous of selling a handsomely situated farm, on Hunting creek, in Fairfax county Virginia, adjoining the Mount Vernon estate and the lands of general Thomson Mason, four miles from Alexandria, containing about 240 acres, 80 of which are in wood—40 to 50 in thriving meadow of clover and timothy—a part of the residue recently seeded with wheat and rye, and clover, last spring—the whole enclosed with a new post and rail fence.—The improvements are, a comfortable and



convenient frame dwelling house and kitchen, smoke house, poultry house, granary and stables.—There is on this place a rich and productive garden, and a large body of marsh meadow, from which may be saved annually 100 tons of hay, nearly as nutricious as the best timothy or clover.—With the farm would be sold a number of very valuable horses, cows and sheep; waggon, carts, and a variety of farming utensils and household and kitchen furniture; corn, oats and rye, and 40 tons hay. Also, adjoining the one above described, a farm containing 160 acres, recently enclosed, on which is a



brick house, which a trifling expense would render comfortable. The soil is excellent, and a considerable part might be easily converted into meadow.—it would be sold with the other or separately. Also, a number of valuable servants, male and female. To prevent unnecessary application, he would observe, that they will only be sold to persons residing in the District or its vicinity, and not to be carried from it. The subscriber will also sell the greater part of his household furniture, which is new and handsome. For terms of all or any part of the above property, apply to NORBLET HERBERT, esq. or

Curvature of the Spine.

DR. HAMILTON,

No. 47, North Gay street, Baltimore,

HAVING turned much of his attention during a long practice to the *diseases of the Spine*, begs leave to tender his services for the cure or relief of that afflicting malady. The approach of this disease is easily detected by an attentive observer. It makes its appearance generally in children between the second and sixth year; a protuberance of one or more of the small bones composing the spine becomes evident, loss of appetite, irregularity of the bowels, and emaciation soon follow, together with much disinclination to walk—and unless immediate aid is obtained, death or incurable decripitude through life are the certain consequences.

Doctor Hamilton has the satisfaction of knowing that his treatment of this disease, and application of the necessary apparatus, which is simplified at the same time, that it is materially improved, have received the unqualified approbation of many of the most eminent of his medical brethren in Baltimore. Spring corsets, upon a new principle, can be applied for the use of young ladies evincing a tendency to this disease, which, while they afford the most effectual support for either side, may be worn without observation. Satisfactory references might be given to parents whose children have profited by this improved mode of treatment, did not delicacy forbid the publication: they may be easily obtained if desired, by a private interview.

ROMULUS RIGGS,

AT his office, next door below Crawford's tavern, Bridge-st. Georgetown, will exchange all kinds of Bank Notes on the most reasonable terms.—All persons who may have notes on the banks of North Carolina, South Carolina and Georgia, would do well to call on him, as he is largely in the purchase of that kind of money, and will take it on the most reasonable terms:—Persons travelling to the Western Country may at all times get the Bank Notes of the Western Banks at a fair discount, by calling at his Office. For the information of all persons throughout the U. States, R. Riggs makes it known, that all of the Banks of the District of Columbia pay their notes on demand in specie; and it would be much to the advantage of the merchants, and trading to the South and west, to encourage the circulation of the Notes of the Banks of Georgetown, Washington and Alexandria, as it will at all times answer for remittances to the large commercial and Atlantic towns;—all persons emigrating or travelling to the westward should be very particular and take the Notes of the Banks of the District of Columbia, as they will find them the most current, there being no counterfeits on the District Banks. ROBERT COCHRAN,

No. 48, North Fourth-street, next door to the Green Tree Inn, Philadelphia.

WITH confidence offers to the public, his superior Portable and Liquid blacking, so much admired and approved of, which is manufactured by himself only.

This blacking possesses every desirable quality, being of an oily nature, it preserves the leather perfectly soft to the last, and keeps it from cracking—it is a jet black, affords a most superlative polish, entirely free from any offensive smell, and so clean as not to soil the whitest muslin or any other substance it may chance to run against, and will keep in any climate—it has a peculiar advantage in being put up in a portable manner, and may be packed without possibility of risque, with the nicest clothes or goods. The Portable Blacking is much adapted for gentlemen residing or travelling in the country, where materials for making Blacking is not to had, and as for cheapness and elegance, far exceeds any ever imported or manufactured in the union. Where is sold as above, the beautiful Chinese Liquid Blacking, for ladies morocco boots and shoes, which makes the oldest morocco boots or shoes appear the same as when new. Sold wholesale at the manufactory, as above.

Charlotte Hall School.

THE board of trustees for Charlotte Hall school deem it their duty to announce to the public, the present flourishing condition of this institution. Since the introduction of the present professors, the school has rapidly progressed in the public estimation.

When Philip Briscoe, esq. was called to assume the office of Principal, there were but 27 pupils. The liberality of the State Legislature of 1817, enabled the trustees to retain his services and those of Mr. Miltimore for the classical department—the Reverend Mr. Neale H. Shaw has also been retained as professor of mathematicks, and he is aided in that department by Mr. Sweetsee, a gentleman in high estimation as a professor. Under the management of these gentlemen the school has now 95 boys; and very many applications have already been made for entrance and board. Heretofore a portion of the boys have been compelled to board at the neighboring houses at too great a distance from the school; the trustees are now making arrangements which will enable fifty boys more to be accommodated immediately at the school; so that at all times the Principal will be enabled to exercise a general superintendance over their moral deportment (to the corruption of which, the boys in this retired village have but few temptations). The board will remark to those who are unacquainted with this place, that no part of Maryland is more distinguished for its general healthiness. The price of board is only 100 dollars a year. The tuition is now but 28 dollars a year! It will be raised after August to 32 dollars—a price much lower, however, than any of the public schools of our state.

It is intended then by the trustees to select four boys (of poor and indigent parents) of promise, and to board, clothe, and educate them entirely at the expense of the institution, and afterwards to labor to procure them that station to which their talents and conduct may entitle them.

Signed, by order,

NEALE H. SHAW, Reg'r.
